

Priya Nandakumar

Mechanical Design Engineer

priya.nandakumar@example.com | +91-98xxx-xxxxx | Bengaluru, India

Summary

Mechanical design engineer with 6 years of experience in fluid systems and pump design for industrial and consumer appliances. Skilled in CAD modeling, tolerance stack-up analysis, and DFM/DFA reviews for high-volume manufacturing.

Experience

Senior Design Engineer — Meridian Fluid Systems Pvt. Ltd. (2021-Present)

Led mechanical design of a submersible pump product line from concept through production release. Reduced impeller cavitation failures by 34% through revised blade geometry. Coordinated with QA on warranty return analysis and drove root-cause fixes for seal degradation issues.

Design Engineer — HomeTech Appliances Ltd. (2018-2021)

Designed housings and thermal management systems for small kitchen appliances, including coffee makers and kettles. Owned DFMEA documentation and supported UL/CE certification testing for two product launches.

Education

B.Tech in Mechanical Engineering — Indian Institute of Technology, Guwahati (2014-2018)

Skills

SolidWorks, ANSYS Fluent, GD&T, DFMEA, injection molding design, pump hydraulics, thermal analysis, supplier PPAP review.

Certifications

Certified SolidWorks Professional (CSWP), Six Sigma Green Belt.
